

# 209 GO terms clustered by 'binary\_cut'

potassium plasma cation chloride across  
**transmembrane** inorganic  
**transport ion sodium**

assembly  
**recombinase** telomere strand dna  
**repair doublestrand break**

cellular  
**homeostasis** ion potassium

cell mitotic positive  
**transition** phase cycle gs

**repolarization** potential action  
**membrane** depolarization

**metabolic** longchain purine sulfate acid  
**chondroitin** fatty biosynthetic

**bmp** response signaling pathway

**acetylation** histone positive

**Similarity**
