

# 382 GO terms clustered by 'binary\_cut'

nucleotide  
nucleoside macromolecule triphosphate  
purine biosynthetic catabolic  
**metabolic** compound

reticulum endoplasmic  
cotranslational membrane meiotic  
**establishment** transport  
**targeting** localization

mitochondrial coupled atp chain  
**electron** transport synthesis

proteincontaining nucleation ribosome  
ribonucleoprotein organization  
ribosomal biogenesis complex  
**assembly** subunit

antimicrobial biotic misfolded immune stimulus  
**response** humoral unfolded

hk acetylation histone

**Similarity**
