

# 298 GO terms clustered by 'binary\_cut'

cellular macromolecule triphosphate acetylation  
 organonitrogen nucleobasecontaining ribonucleoside electron  
 purine catabolic small nucleotide purinecontaining  
 biosynthetic nucleoside organic monophosphate

**process** metabolic compound

membrane reticulum endoplasmic  
 cotranslational transport  
 establishment  
**targeting localization**

chain mitochondrial  
 respiratory large ribosome organization small  
 ribonucleoprotein complex  
 biogenesis ribosomal  
 subunit **assembly**

signaling ligand immune cellular  
 unfolded antimicrobial absence  
**response** humoral

**Similarity**
